Slow Marathon is Deveron Projects' annual 42km themed walking event celebrating the human pace, it is both an endurance event as well as a poetic act that brings together friendship, physical activity and the appreciation of our landscapes in their geo-political settings.

This year's marathon will explore themes of poetry & common access to our local land. We'll be walking a route inspired by the local poem shown above. It is a circle of beautiful and varied terrain - including woodland, farmland, hills, and the banks of the river Deveron - starting and finishing in Huntly.
